

Claims

- [c1] What is claimed is:
1. A putting training device comprising:
a level attached to the shaft of a putter.
 - [c2] 2. A putting training device as in claim 1 in which said level consists of a level chamber with an air bubble within said chamber.
 - [c3] 3. A putting training device as in claim 2 in which said level chamber contained within a chamber.
 - [c4] 4. A putting training device as in claim 3 in which said chamber has a top housing and a bottom housing.
 - [c5] 5. A putting training device as in claim 1 in which said level consists of a level chamber with liquid within said chamber and an air bubble within said chamber.
 - [c6] 6. A putting training device as in claim 1 in which said level has an image on its face.
 - [c7] 7. A putting training device as in claim 1 in which said level consists of a gimbal.
 - [c8] 8. A putting training device comprising:

a level component attached by a hinge to a shaft attachment means.

[c9] 9. A putting training device as in claim 8 in which said attachment means are a plurality of clamps.

[c10] 10. A putting training device as in claim 8 in which said putter shaft attachment has an adjustment means to adjust the angle between said level component and said shaft attachment means.

[c11] 11. A putting training device as in claim 8 in which said adjustment means is a drive gear.

[c12] 12. A putting training device as in claim 8 in which said adjustment means is a drive gear on the shaft attachment means which moves a tongue attached to said level component.

[c13] 13. A putting training device as in claim 8 in which said attachment means has a top housing and a bottom housing.

[c14] 14. A putting training device as in claim 8 in which said level consists of a level chamber with an air bubble within said chamber.

[c15] . A putting training device as in claim 14 in which said level chamber contained within a chamber.

- [c16] 16. A putting training device as in claim 15 in which said chamber has a top housing and a bottom housing.
- [c17] 17. A putting training device as in claim 8 in which said level consists of a level chamber with liquid within said chamber and an air bubble within said chamber.
- [c18] 18. A putting training device as in claim 8 in which said level has an image on its face.
- [c19] 19. A putting training device as in claim 8 in which said level component contains a gimbal.
- [c20] 20. A putting training device comprising:
a level component attached by a hinge to a shaft attachment means, said putter shaft attachment has an adjustment means to adjust the angle between said level component and said shaft attachment means where said adjustment means is a drive gear on the shaft attachment means which moves a tongue which is attached to said level component.
